

KIDS ON THE MOVE FOR SUCCESS

Knowledge is Powerful In Literacy Program

Knowledge is Powerful in Literacy is a four day, after school program offering Academic Literacy: Monday – Wednesday; Financial Literacy: Wednesday; and STEAM: Thursday.

We discovered that students would be better served with a literacy program that focused on building vocabulary. Stronger vocabulary understanding is directly related to higher reading scores. Vocabulary is responsible for 70% of reading comprehension problems in elementary schools. Additionally, writing connected to text and writing connected to self will be incorporated into the curriculum.

In addition to Academic Literacy, students will participate in Financial Literacy activities once a week through standardized curriculum and/or community partnerships. STEAM activities end the weekly programming. Students will engage in presentations from staff or community organizations in the fields of Science, Technology, Engineering, Art and Math.

Program Evaluation

- Daily attendance records
- Vocabulary quizzes
- Writing Samples
- At least 25% of the total student population of the program will increase English Language Arts scores on the Georgia Milestones Assessment System
- Parent Opinion Survey
- Student/Staff Opinion Surveys

WEEKLY SCHEDULE

MONDAY

- DAILY CHECK IN CHAT
- READING CIRCLE
